

Lobee Pump & Machinery Co.

Industrial Pumps and Accessories

Since 1899...Noted for Highest Quality Pumps and Equipment

11/06/2012

Dear Lobee Customer,

We have been very busy over these last two years upgrading and developing new products for the marketplace. I am proud to announce at this time our expanded Stainless Steel Gear Pump line:

- ✓ Now four model configurations to choose from – LOE, MOE, LOX, MOX
- ✓ Very competitive pricing targeting 75% of the most common applications
- ✓ Expanded flow range, new size '1' MOE and MOX for low flow and measured rate applications
- ✓ Operating pressures to 150 PSI
- ✓ All models are fit and form interchangeable by size with one another. Existing original design model LOE can be 'upgraded' to a new model configuration requiring no mount, coupling or plumbing changes.
- ✓ Standard delivery is 3-5 days ARO. No-fee expedited delivery available for 24 hour shipment.

As always, we appreciate your business!

Regards,

Mike Johnson
